Members' participation and active involvement are two cornerstones of ALDA's work and the basis of our strength and added value.

This is not only a programmatic and theoretic approach, but also concrete actions taken by the Association, whose democratic life is relaunched and refreshed every 4 years, concurrently with the appointment of the Governing Board of ALDA, that has now approved as one of their first actions the activation and animation of the new ALDA Working Groups (WG).

An economy that works for you

The coronavirus pandemic is an unprecedented challenge for European and global economies. It has had a direct impact on individuals, families and businesses, particularly small- and medium-sized businesses, which form the backbone of our economy.

EU countries need to work together to ensure that our unique social market economy allows businesses to thrive, while protecting those in need.

Civil Society Organizations are among the key stakeholder in the process for building a future and an economy that are inclusive, sustainable and fair, that's why we should boost cooperation and reinforce the links between the organized civil society and the private sectors, building a society based on an economic approach that is people-oriented.
